WHY NJORD?

NJORD Law Firm serves as a one-stop shop to the Nordic region. We make sure you only have to seek expert international IP advice in one place, and we assist clients in all countries from one contact person.

NJORD's IP team represents a wide range of clients – from minor companies in the set-up phase to major national and global groups of companies with world-famous brands. Currently, we serve 40 of the world's TOP100 brands, and the client base continues to grow with extremely well-known brands.

Our IP team is international, founded in the Nordic area, which is reflected in our deep knowledge of the Scandinavian market as well as our Scandinavian mentality and values. A large number of foreign native partners and associates give us access to a wide range of jurisdictions – e.g. Sweden, Finland, Norway, Iceland, Germany, the US, and England.

Head of team Jeppe Brogaard Clausen is highlighted as a Notable Practitioner in Chambers: “Jeppe Brogaard Clausen co-heads the IP team. He has experience across international IP, litigation, and enforcement, with a focus on copyright issues in the entertainment sector.”

Partner and Attorney Peter Gustav Olson is ranked in WTR 1000: “Trademark virtuoso Peter Gustav Olson is ‘a perceptive strategist and an expert on EU trademarks.’ Having filed over 1,200 Community trademark applications and been involved in more than 600 Community trademark oppositions throughout his career, clients can sleep soundly knowing their marks are safe in his hands.”

Partner and Attorney Frank Jørgensen is also ranked in WTR 1000: “Professionalism, honesty and thorough preparation are a few words to describe Frank Jørgensen. He is a top-notch litigator with ‘an excellent personality and even better brand protection capabilities.’”
